 Package!

Is this acceptable?

OK. But got a few more historical brews shown. Some

31 July 1970

Mr. Lundahl:

For nearly two years the Photogrammetry Division has conducted a weekly "Show and Tell" for its personnel. A wide range of subjects have been included, such as: explanation of a new mensuration technique, report of an on-site trip, tape recording of Cuban crisis, briefing by OSI division chief on their use of our measurements, unique mensuration projects, and how the IP career system works. Some of the briefings are given by PHD personnel and some by invited guests.

The purpose of the "Show and Tell" is to share information. By keeping all personnel informed of matters pertaining to their work they can do a better job, understand why things are done a certain way and their enthusiasm is stimulated.

I wonder if you might find time in your busy schedule to address our photogrammetrists at one of the "Show and Tells"? A suggested topic is the development of NPIC, from a concept 20 years ago, to an Agency PI division, to the formal charting of a national center in 1961 with emphasis on the role of the photogrammetrist. We prefer to conduct it in our work area on an informal basis. Half of our photogrammetrists have been with NPIC less than three years. Many do not know you or the story of NPIC. I am sure your talk would receive top rating among our varied "Show and Tell" programs. The time can be arranged at your convenience.

25

Schedule for the Visit of

X1 [REDACTED]

0930 - 1600 13 August 1970

0930 - Arrival.

6X1 0930-1000 - Greeting by [REDACTED] in his office.
